

Professional Engineering & Technical Division

Since 2001, Dogwood Management Partners has been a leader in the Staffing Services Industry. Our combination of strategic locations and a Professional Account Management and Recruiting team with nationwide focus positions us to deliver timely support our clients have come to expect.

Dogwood's approach to recruiting involves a unique combination of authentic, meaningful relationships and referrals with passive candidates through today's social media sites as well as access to some of the industry's largest databases, beginning with our own meticulously maintained candidate resumes.

Our customized staffing solutions that are unique to every client include honest, fair and open fees while not sacrificing quality candidates on a Contract/Temporary, Contract to Direct and Direct Hire Basis.
