

Need engineering talent?

If you're in need of engineering talent, maybe we can help. Dogwood provides expert engineering personnel with a full range of skill sets, certifications and education.

We're national in scope, with specialists in this space with years of experience, and who know how to get results. We work with companies of all sizes, complexities and industries. We have our own database of pre-screened candidates.

The people we place for our clients have been fully screened and of course, are ready to go to work! **Our model of transparency, flexibility and fast response are what we're all about.**

We respond quickly.

You need a partner that's just as fast and as flexible as you are— someone that will respond to your fast-changing needs.

Our ability to *immediately* respond to requests for resources are how we do business.

Team with a winner!

In a Dunn & Bradstreet satisfaction survey among our clients, we scored an impressive 98%-99% in all categories— that's an A+ in anyone's book.

Our clients include companies of all sizes across the US— including the Fortune 50. Why? **Because we get results!**

We fit your budget

Our programs include a range of solutions that give you the flexibility that you need to bring fully qualified engineers on to your team, and at competitive rates.

A Veteran-Led Business

As a veteran-owned business, we practice **full transparency** with our clients, our employees and business partners. We're ethical, we're experienced, and we know how to take ownership of customer problems.

We work hard. **Our people get results.**

Yes, Dogwood has been certified as a service-disabled veteran owned small business by the Department of Veteran's Affairs. **But at the end of the day, it's not about certifications— it's about results.** We want to *earn* your business— by working hard, by working smart and by earning your trust.

If you're looking for a partner who focuses on simplicity, accuracy and transparency, shares your passion for hard work and who wants to help you succeed, put us to work for you today.
